

Basketball 1 Week Shooting Camps

Shooting camps are a great way to address specific needs to improve your son or daughters shooting skills. The DuPage Training Academy Basketball coaches will be utilizing the state of the art "The Gun" shooting machine. Video analysis will also be included.

Open shooting time will be included for players to use The Gun for their personal development.

"The Gun" machine is the greatest aid for shooting a basketball ever invented! Imagine shooting 1000 shots in 40-45 minutes--all kinds of shots--3 pointers; shooting off the dribble; shooting after "skip" pass; shooting after "kick out: pass FREE Throws, everything but "lay ups". The 3 basic elements of shooting are: 1. form 2. arch and 3. repetition. The Gun 6000 gives you arch and repetition, the player practices good form (technique).

Summer Classes: (M-F)
Boys & Girls Sessions 10:00-11:30am
