

Game Time College Exposure Camp

DuPage Training Academy along with Game Time Camps will provide the accomplished softball players with every opportunity to display the skills that they have worked so hard to develop. Our exposure camp aims to focus on skills that college coaches are most interested in. This camp will be most beneficial because we have surveyed college coaches on what they are interested in seeing out of the players during drills. Coaches want to see hard defensive plays, display of excellent range and ability to improvise and most of all, they want to see a battle between a great pitcher and a strong hitter. We will incorporate all these skills with an action packed, exciting and beneficial camp that will show college coaches everything you have to offer.
